

# AMR-1 E

Anti Riot Helmet

<b>Shock Absorbing</b>	-		+
<b>Penetration Resistance</b>	-		+
<b>Fragment Protection</b>	-		+
<b>Protective Area</b>	-		+
<b>Weight</b>	-		+

## Tech Specs

## Standards / Certifications

<b>Material</b>	Fibre reinforced duroplast
<b>Coating</b>	2K- paint scratch & chemical resistance
<b>Style</b>	Full-Cut Anti Riot Shape
<b>Edge Protection</b>	EPDM rubber edge
<b>Colours</b>	black, olive green, midnight blue, white 
<b>Weight*</b>	1350 g / 2.98 lbs with inside equipment, Neck Guard, Rails and Visor (3mm)
<b>Shock Absorbtion</b>	CPP-1 Pad System
<b>Harness System</b>	CRS-2 Harness System
<b>Size</b>	Unisize 52 - 62 cm / 6 1/2 to 8
<b>Interfaces</b>	CRR-1 modular Railsystem

shock absorption according to EN 397, 5.1.1  
 resistance to penetration according to EN 397, 5.1.2  
 flame resistance according to EN 397, 5.1.3  
 lateral deformation according to E 397, 5.2.4

blunt impact resistance and resistance to penetration have been performed at  
 -10°C (6.2.3), water immersion +20°C (6.2.5) and +50°C (6.2.4)

## Special Properties | Accessories

- protection against penetration
- blunt impact protection
- heat-resistant helmet shell
- well ventilated pad system with air vents
- 3 mm (or thicker) visor with anti scratch and anti fog coating
- removable neck protection

CRR.1 (Riot Rail System) with fixed visor mount, gas mask and multi functional rail

**additional accessories:** flashlights, cameras, gas masks and helmet bags

**Busch PROtective**
