

## ARC-2 E

Ballistic Anti Riot Helmet

<b>Shock Absorbing</b>	-						+
<b>Penetration Resistance</b>	-						+
<b>Ballistic Protection</b>	-						+
<b>Protective Area</b>	-						+
<b>Weight</b>	-						+

### Tech Specs

<b>Material</b>	Kevlar Fiber
<b>Coating</b>	2K- paint scratch & chemical resistance
<b>Style</b>	Full-Cut Anti Riot Shape
<b>Edge Protection</b>	EPDM rubber edge
<b>Colours</b>	black, olive green, midnight blue, white 
<b>Weight*</b>	1,98 kg / 4.36 lbs including inside equipment, Neck Guard, Rails and Visor (3mm)
<b>Shock Absorbition</b>	CPP-1 R Pad System
<b>Harness System</b>	CRS-2 Harness System
<b>Size</b>	Unisize 52 - 62 cm / 6 1/2 to 8
<b>Interfaces</b>	CRR-1 Railsystem

### Standards / Certifications

- ballistic protection against 9 mm rounds according to NIJ-STD-0106.01 IIIA, NIJ-STD-0108.01 (Chesapeake)
- STANAG 2920, 17 grain fragment: V50= 600+ m/s - 1968+ fps
- shock absorption according to EN 397, 5.1.1
- resistance to penetration according to EN 397, 5.1.2
- flame resistance according to EN 397, 5.1.3
- lateral deformation according to E 397, 5.2.4
- shock absorption and resistance to penetration have been performed at -10°C (6.2.3), water immersion +20°C (6.2.5) and +50°C (6.2.4)

### Special Properties | Accessories

high level of protection against penetration  
high level of blunt impact protection  
heat-resistant helmet shell  
good ventilation thanks pad system with air ducts  
3 mm or thicker visor ( with anti scratch and anti fog coating  
removable neck protection

CRR.1 (Riot Rail System) with fixed visor mount, gas mask and multi functional rail

**additional accessories:** flashlights, cameras and gas masks

**Busch PROtective**
